- 4) Improve your speaking skills (if presenting)

Course Requirements:

Grading: Grades will be given pass/fail. You are required to attend a total of **9** research presentations and turn in an evaluation form for each one. Eight of those presentations will be in class. This means you must attend **1** additional research talk during the quarter (this shouldn't be difficult). If you miss an in-class presentation, then you will need to substitute additional outside talks to reach a total of nine. If you have a question whether the outside talk you attend will count or not, please see me beforehand.

If you fail to turn in nine evaluation forms, then you will not pass the course.
